Declaration of Conformity for RoCoF Validation Method

This declaration of conformity aims to confirm that the applicant confirms that the unit complies with the requirement for Rate of Change of Frequency robustness (RoCoF) as described in the Technical Regulation 3.3.1 (TF3.3.1), Chapter 2 §11, or Energinet's national implementation of RfG Article 13, paragraph 1, subparagraph b.

The applicant confirms with this signature that they are aware of the validations method for Rate of Change of Frequency as established by Energinet¹.
