<b>Standards</b>												
TF 3.3.1	Technical Regulation 3.3.1 for Electrical energy storage facilities											
CE-compliant	Safety etc.											
*Note	The expiry date is when a new technical regulation is published or a when the Energy storage plant is updated (new version or revision)											
**Note	Units above 50Kw are required to submit power quality documentation to the relevant DSO for the specific connection.											
Note	NTR = Next Technical Revision (Future)
